

Inside environment
100% comfort e hygiene
0% stress & odour

03\ Internal environment 100% comfort & hygiene 0% stress & odours
the sweat and guides it away from the skin. Bacteria and bad odours are prevented due to the continuous release of silver ions
polyester: absorbs sweat • polyamide: increases the abrasion resistance.

A three component lining: • Coolmax intercepts

•

An inside environment: Fresh, Dry, Antibacterial, Anti odour thanks to the Coolmax[®].

- Protects against risk of perforation;
- Non metallic: therefore lighter and more flexible;
- Antibacterial, reduces proliferation of fungi.

04\ "V" design of the collar in the back: it reduces pressure on the tendon during walking. So the ankle reaches a soft place where to lay.

05\ Reflecting insert for high visibility.

06\ Highly abrasion resistant TPU over cap, for a long wearing.

07\ Width 11
